

MyBit.io

How to Securely Store MYB Tokens

Go to myetherwallet.com

Enter a password (make sure to keep this safe)

Click on Create New Wallet

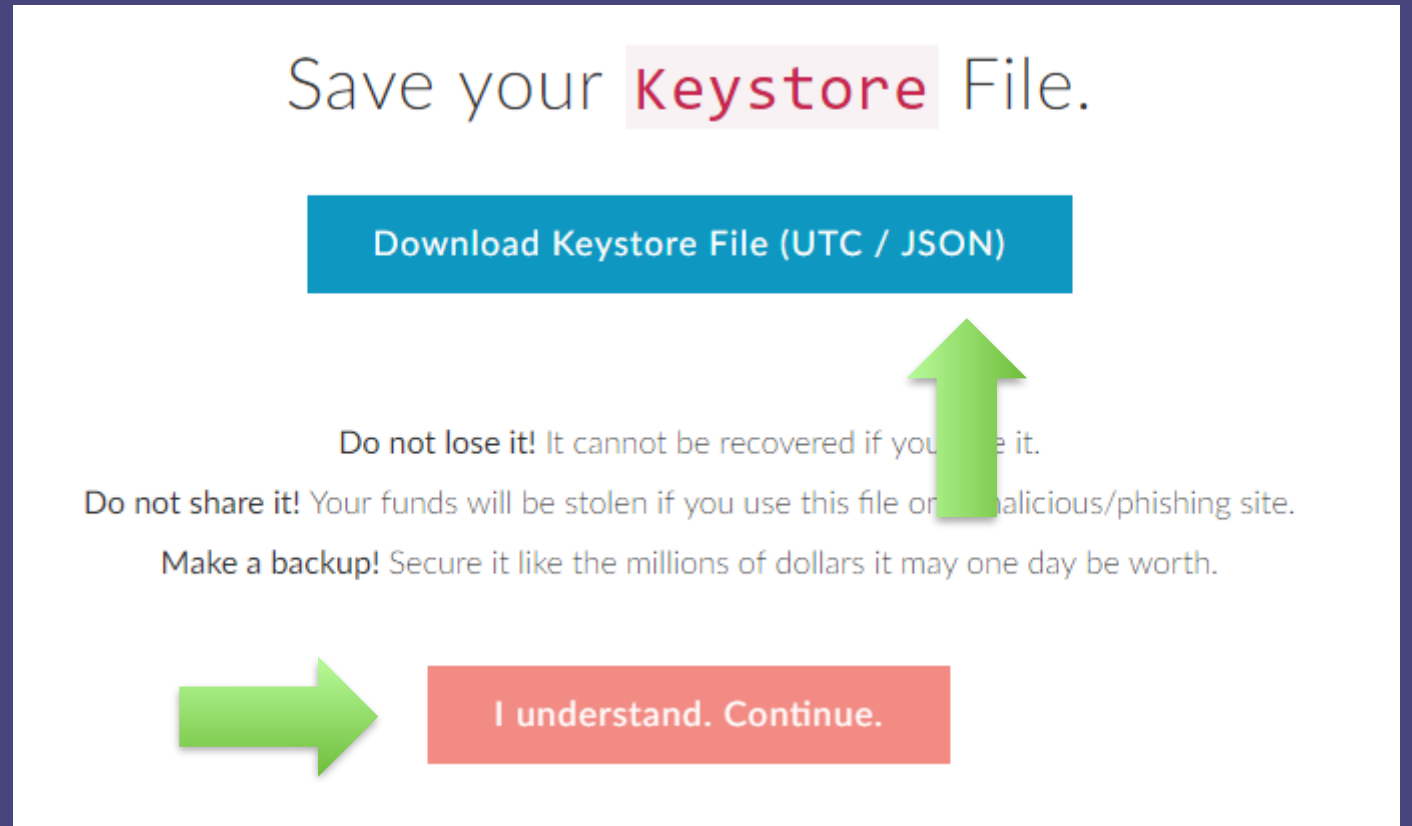

A screenshot of the "Create New Wallet" form on the MyEtherWallet website. The form is white and centered on a dark blue background. At the top, the text "Create New Wallet" is displayed in a large, dark grey font. Below this, the text "Enter a password" is centered above a password input field. The input field is a long, thin rectangle with a thin red border, containing seven black dots and a vertical cursor line on the right. To the right of the input field is a grey button with an eye icon, used for toggling password visibility. Below the input field, a blue button with the text "Create New Wallet" in white is centered. Two green arrows point upwards: one points to the password input field, and the other points to the "Create New Wallet" button.

Save your keystore file

Click on Download Keystore
JSON File

Tip: Save this to a new
folder called “MyEther Info”
in your directory.

Click on I Understand

Save your **Keystore** File.

[Download Keystore File \(UTC / JSON\)](#)

Do not lose it! It cannot be recovered if you lose it.

Do not share it! Your funds will be stolen if you use this file on a malicious/phishing site.

Make a backup! Secure it like the millions of dollars it may one day be worth.

[I understand. Continue.](#)

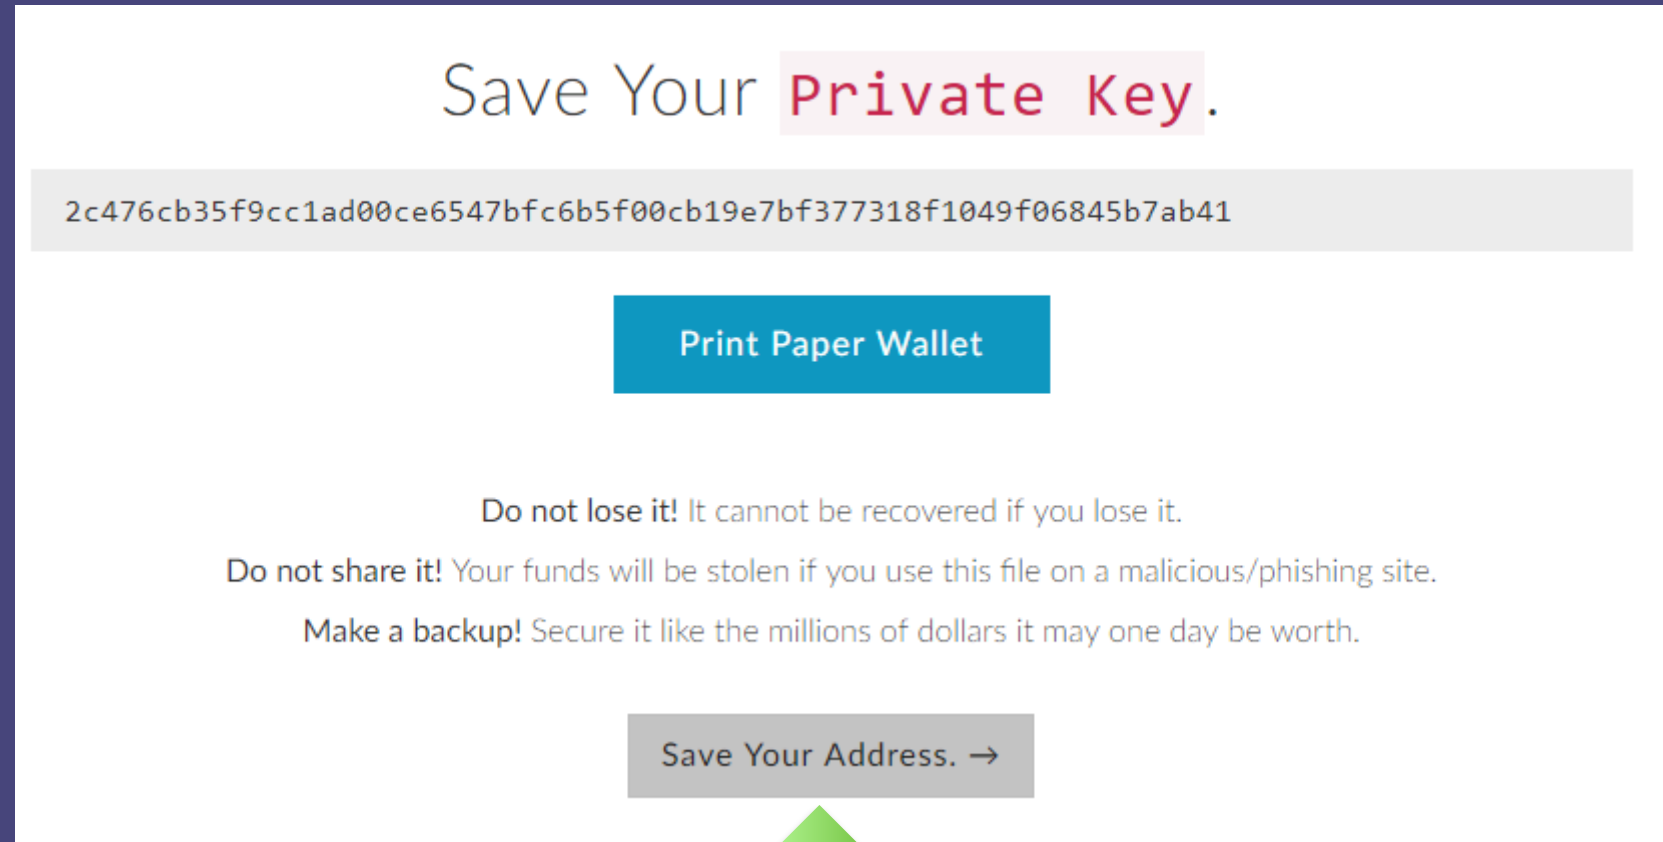

The screenshot shows a white dialog box with a blue button at the top, followed by three lines of warning text, and a red button at the bottom. A green arrow points from the red button up to the blue button, and another green arrow points from the left towards the red button.

Save your Private Key

Copy and paste the private key into a Word/Text Doc

Save the Word/Text Doc in the new “MyEther Info” folder

Click Save Your Address

Save Your **Private Key**.

```
2c476cb35f9cc1ad00ce6547bfc6b5f00cb19e7bf377318f1049f06845b7ab41
```

[Print Paper Wallet](#)

Do not share it! Your funds will be stolen if you use this file on a malicious/phishing site.
Make a backup! Secure it like the millions of dollars it may one day be worth.

[Save Your Address. →](#)

Unlock Your Wallet

Select 'Keystore File'

Click Select Wallet File

Unlock your wallet to see your address

Your Address can also be known as your **Account #** or your **Public Key**. It is what you share with people so they can send you Ether or Tokens. Find the colorful address icon. Make sure it matches your paper wallet & whenever you enter your address somewhere.

How would you like to access your wallet?

- Metamask / Mist
- Ledger Wallet
- TREZOR
- Digital Bitbox
- Keystore File (UTC / JSON)
- Mnemonic Phrase
- Private Key

Parity Phrase: [No longer supported](#)

Select Your Wallet File

SELECT WALLET FILE...

Access Your Keystore File

Go into you “MyEther Info”
folder

Decrypt Wallet

Enter your password

Click Unlock

The screenshot shows a white interface with two main sections. The left section is titled "Select Your Wallet File" and contains a grey button labeled "SELECT WALLET FILE...". Below this is a message: "Your wallet is encrypted. Please enter the password." followed by a password input field with ten dots. A green arrow points upwards from below the input field. The right section is titled "Unlock your Wallet" and contains a blue button labeled "Unlock". A green arrow points upwards from below the "Unlock" button.

Add MyBit Token

Scroll down the page

Click Add Custom Token

Token Balances

Ahh! There are too many tokens for our poor nodes! Click "Load Token Balances" to see them all. You are limited to loading these once per minute. Try checking your balance on <https://etherscan.io> or [Ethplorer.io](https://ethplorer.io) instead.
